

# Project Overview | ST-23-09

US Route 50 from Gore Road (Route 751) to Wardensville Grade (Route 608)

## Project Purpose, Goals, & Objectives

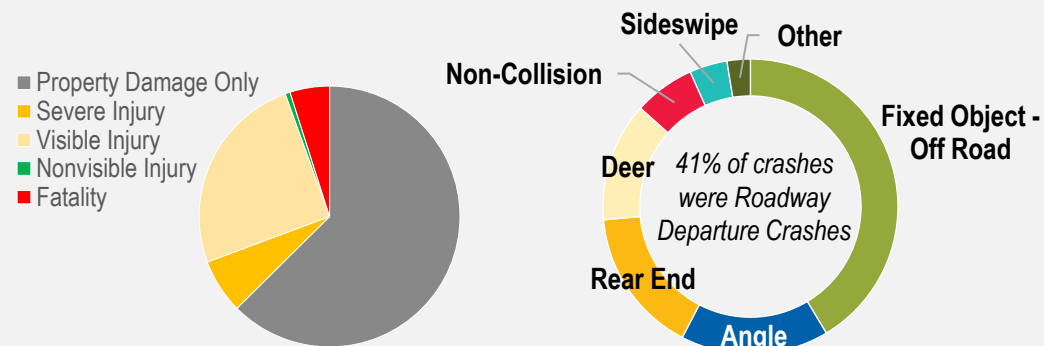

Analyze the operational and safety issues identified along US Route 50, with a focus on providing enhanced safety improvements.

Identify cost-effective preferred improvement alternatives that address the deficient conditions and prioritize safety.

## Issues in the Study Area

- Significant fixed object – off road crash trend related to failure to maintain control
- Very high number of median crossovers with a rate of greater than 4 crossings per mile
- Notable number of crossovers (28) without turn lanes
- Notable number of fatal crashes (16 total crashes), with 9 crashes involving median crossovers

## Project Fact Sheet

VDOT District	Staunton
Locality	Frederick County
Corridor Length	7.7 miles
Number of Crossovers	32
Functional Classification	Other Principal Arterial
Speed Limit	55 mph
